WEB DEVELOPER

As a dedicated software developer, I am driven by a deep passion for learning and creating. My journey in the tech world is fueled by an insatiable curiosity and a relentless pursuit of knowledge, constantly exploring new technologies and methodologies to enhance my skill set. This enthusiasm for continuous learning is matched by my love for creation, whether it involves developing innovative applications, designing elegant solutions to complex problems, or contributing to open-source projects.

TOOLS

Development & Version Control

- Git, GitHub, GitLab,
- Visual Studio,
- VS Code,
- Postman,
- PowerShell

Project Management & Collaboration

- Trello,
- Google Drive,
- Google Forms,
- Slack,
- Microsoft Teams

Design & Prototyping

- Figma,
- InVision

Automation & Scripting

- Google Apps Script

SKILLS

Frontend
- JavaScript (ES6+), TypeScript
- Angular (v13–19), PrimeNG, Angular Material, NgBootstrap, Bootstrap, DevExpress
- HTML5, CSS3, SCSS
- Ionic, Electron (desktop hybrid apps)

SKILLS

Backend
- C#, .NET / .NET Core, Web API, Entity Framework, AutoMapper
- SQL Server, LINQ, Stored Procedures

Mobile & Cross-Platform
- Ionic
- Electron

Dev Tools & Automation
- PowerShell scripting, Git, Visual Studio, VS Code, Postman

Other Technologies
- date-fns, Win32 API, REST APIs, JSON, Dependency Injection, CI/CD (basic), sweetswal, ng-select, devexpress, angular material, ng boostrap, primeng, ng2-pdf-viewer, boostrap5, moment...

Angular
- Angular JS, Angular 12 >= Angular 19

PERSONAL

Favorite color: Purple 💜 | Languages: English & Spanish
Enjoys experimenting with UI/UX, automation, and code architecture.
